

# OHV PLAN AMENDMENT/EIS

## Preliminary Key Issues

- Route Designations & Use Restrictions
- Linked trail systems
- Sensitive resource protection
- Trail design, maintenance, monitoring
- Consistent signing, mapping & enforcement
- State & private land impacts
- Community economics
- State and national policies coordination

## Useful types of information include:

- Maps (*favorite routes, camping/staging areas, sensitive habitat*)
- GPS data on routes
- Specific areas of OHV interest
- Specific resource concerns
- Specific areas needing additional protection
